Gerald Shirar called; he has claimed his site & obtained two bids to have wells redeveloped & sampled & report generated. He wanted to find out if he needed to have the well surveyed right now, I said the most important thing to do is have the well sampled top see if there's anything in the water. We discussed "what if" scenarios, but I iterated that the well first needs to be sampled, and then we'll go forward after we have the results. He'll authorize the sampling to be done.
