Karen,
Here's the signed PW form. It looks like they've updated it a bit recently!
Thanks for sending it.

Mark Detterman
Senior Hazardous Materials Specialist, PG, CEG Alameda County Environmental Health
1131 Harbor Bay Parkway
Alameda, CA 94502
Direct: 510.567.6876
Fax: 510.337.9335
Email: mark.detterman@acgov.org

PDF copies of case files can be downloaded at:

Hi Mark,

Thanks for sending over the signed DWR form. As requested, please find attached the ACPWA request form for signature. Please let me know if you have any questions.

Regards,

Karen A. Emery, P.G.
Senior Geologist

SCA Environmental, Inc.
tel: 510.457.1708
cell: 510.717.3848

>
> Please also forward a signed copy of the Alameda County Dept of Public Works well survey form (available from the ACPWA website) as the two databases are different enough to get interesting results, and thus will capture a more complete well record of the location. Both information sources will help move the case along a Path to Closure.
>

> In order to expedite that path, ACEH requests site information be organized when submitted in a limited and focused Site Conceptual Model that identifies site data gaps, evaluates potential conduits (utilities and wells), evaluates the site under the Low Threat Closure Policy, includes a Data Gap Work Plan as needed, and details a Path to Closure Schedule. As you are likely aware, LTCP and Path to Closure reviews of cases are available on Geotracker and ACEH does not believe the site meets the LTCP at this time. However, if you can provide information, reports, and data that fill some of the data gaps that ACEH has identified under the LTCP, ACEH will be able to review them and make any changes to its understanding of the site under the LTCP. This may (or may not) preclude the need for field work. Please see Attachment A (Preferential Pathway and Sensitive Receptor Survey), Attachment B (Site Conceptual Model) and Attachment C (Path to Closure Schedule) for the requisite detail for these items.

>
> If you (SCA) and Mr. Nair would like to come in to discuss this site in order to help identify Paths to Closure for the sites, ACEH would be interested. We have been holding a number of meetings that have substantially accelerated work at a number of sites. Let me know and we can arrange a day and time.
