1633 Harrison Street, Oakland, CA 94621

Dear Mr. Costa:

Alameda County Environmental Health (ACEH) confirms that soil remediation activities completed to date conform to the ACEH approved Remedial Action Plan (RAP) dated June 28, 2007. ACEH staff has reviewed and evaluated the results of soil remediation activities as reported in the Remediation Activities Report, dated July 11, 2008 and Addendum to Remediation Activities Report dated March 23, 2009 and concurs with the finding that remnant areas of contamination and debris which remain onsite can be managed during construction in accordance with the approved RAP. ACEH further approves the abandonment of the existing vapor wells.
