Mark,

All onsite excavation work will be concurrent with the redevelopment. I am unsure when that will start, but I assume sometime in 2010, probably in the spring. We will be notifying ACEH prior to that.

Thanks,

Hi Charlotte,

Per our discussion just now, I understand offsite work will not be able to proceed until the weekend of January 9th & 10th, but that onsite work has already been completed. Due to these circumstances, please use this email to document ACEH approval of your request for an extension.

Has onsite excavation work started yet, or when will it start? ACEH does have an interest in overseeing the removal of impacted soil around the former WO UST location, and perhaps around the second generation USTs / dispenser island, depending on your results.

Thanks,

Mark Detterman

Mr. Detterman,

Due to the City of Oakland not allowing encroachment work through January 2, 2010, can we please change the submittal date for the offsite investigation report to February 26, 2010?

Thank you for your time.

Charlotte Evans
