Hi Nathan,

Please use this email as approval for an extension to December 15th; it does sound like accessing the well can be difficult. Best,

Subject: Work Plan Addendum Report Submittal Extension for RO 0143, Chevron 9-0020, 1633 Harrison Street, Oakland

Mark,

We were unable to collect a water sample from the newly installed monitoring well MW-17 until October 30th. The City of Oakland issued two encroachment permits for the same area on the same day. When Blaine Tech went out to sample the well someone else was working in the area and we were unable to access the well. Because we could only work in the area on the weekend we could not collect a sample until October 30th. The lab results were just received recently. CRA on behalf of Chevron would like to ask for an extension for the submittal of the Offsite Assessment report to be **December 15, 2010**.

Thanks,

Nathan Lee, P.G.
