**Subject:** RE: RO 0143 Former Chevron Station 90020 1633 Harrison Street, Oakland - Work Plan Extension Request

Nate,  
Thanks for the phone call to follow up on this email. ACEH is in agreement that should there be any potential data gaps that might be revealed by completion of the Remediation Progress Report could be incorporated into the requested work plan and sensitive receptor survey. Please use this email to document agreement with the revised submittal order and the requested extension date.

**Subject:** RO 0143 Former Chevron Station 90020 1633 Harrison Street, Oakland - Work Plan Extension Request

Mark,

Conestoga-Rover and Associates (CRA) on behalf of Chevron Environmental Management Company (EMC) would like to request an extension for the Sensitive Receptor Survey and Work Plan which was requested by Alameda County Environmental Health (ACEH) in their letter dated August 2, 2012 and due on September 28, 2012. The reason for this extension request is, CRA would like to complete the Remediation Progress Report that was also requested in the same ACEH letter. The Remediation Process Report requires additional amount of effort and CRA would like to completed that report first as the work plan would verify the remedial efforts. Therefore an extension of **October 26, 2012** for the submittal of the Sensitive Receptor Survey Plan and Work Plan is requested.

Thanks,

**Nathan Lee, P.G.**
