

11/18/92 Meeting between Harsch Investment Corp., Alameda County, RWQCB, and Clayton Environmental.  
(Refer to Clayton's Dec 10 '92 Summary of Meeting)

12/7/92 Drilling Completion logs for wells MW-15 through MW-21 submitted by Clayton Environ.

12/10/92 Summary of Nov 18 '92 Meeting between agencies and site contacts (by Clayton Environ)

Report 12/23/92 Clayton Environ. submitted report summarizing the tank removal and sampling for a former UST previously located near the Good Year Building.  
- Clayton also requests that, in light of this information, that they need not place a well east of MW-9, as requested in the Nov 18 '92 meeting. (Note: They will still be required to install a well due to the oil and grease detected in the borings beneath the former Good Year building in 1989 (Refer to Woodward-Clyde Report, dated July, 1989).
