Jerry,

CRA is experiencing delays in obtaining access to the property located at 663 28th St and has not received a survey back from the owner of 672 27th St. Based on these issues, CRA requests an extension of ACEH's 4/29/10 report deadline and proposes to report results of the off-site investigation (HA-9 through HA-18 on the attached figure) within 60 days of receiving the final laboratory report and the door-to-door survey results within 30 days of receiving the final survey.

CRA will provide the survey and off-site investigation reports separately if one is completed and the other is pending.
