Subject: Case File Review for Fuel Leak Case No. RO0000145 and GeoTracker Global ID T0600101876, Shell/Auto Tech West, 2703 Martin Luther King, Jr. Way, Oakland, CA 94612

Dear Ms Wing and Mr. and Ms. Kwan:

Alameda County Environmental Health (ACEH) staff has reviewed the fuel leak case file for the above-referenced site including the document entitled, "*Human Health Risk Assessment*," dated November 30, 2015 (HHRA). The HHRA, which was prepared on Shell's behalf by AECOM, uses existing data to assess risks for on-site and off-site current and future receptors. Based on this assessment, the HHRA recommends re-sampling of soil vapor probes VP-7 and VP-13 and preparation of a revised Corrective Action Plan (CAP) to replace the 2008 CAP submitted by Conestoga-Rovers & Associates. We concur with these recommendations and request that you submit a Revised CAP no later than April 29, 2016.

TECHNICAL REPORT REQUEST

Please upload technical reports to ACEH ftp site (Attention: Jerry Wickham), and to the State Water Resources Control Board's GeoTracker website, in accordance with the specified naming convention below, according to the following schedule:

- **April 17, 2016** – First Quarter 2016 Groundwater Monitoring Report
File to be named: GWM_R_yyyy-mm-dd_RO145
- **April 29, 2016** – Revised Corrective Action Plan
File to be named: CAP_R_yyyy-mm-dd

These reports are being requested pursuant to California Health and Safety Code Section 25296.10. 23 CCR Sections 2652 through 2654, and 2721 through 2728 outline the responsibilities of a responsible party in response to an unauthorized release from a petroleum UST system, and require your compliance with this request.
