Yola and Steve,

As discussed, I have extended the due date 60 days, from May 31 to August 1, 2016, and have updated Geotracker to reflect this. As before, permitting with the city of Oakland can be a challenge. Should you need to document the extension, you can use this email.

Good luck,

Subject: 1700 Jefferson RO#151 Extension Request

Hi Mark,

As we discussed last week, we were unable to drill in the parking lane or sidewalk on Jefferson Street due to utilities. However, we will be able to advance borings in the right lane of the west side of Jefferson Street without any utility interference. A traffic control plan will take up to 3 weeks for approval from the City of Oakland. We'd like to request a 45 to 60 day extension for the report submittal to accommodate this waiting period for City approval since we won't be able to remobilize for the drilling until at least the 3rd week of June.

Thank you!
