Subject: Mills College

Ms. Jakub,
EquoLogic, on behalf of Mills College, requests a 30-day extension for submittal of a soil and groundwater investigation report currently due October 29, 2012. The lawn area where borings are to be placed is used for a large number of out-door activities. The College has requested that work be performed on October 19.

In addition, you requested information from DWR regarding a water supply well shown on an "old" topo map. Is it possible to send a copy of the portion of the map showing the well location within the Mills College property? Thanks

Lee Dooley/ 408 656-2505
