Hi all,

Please use this email as approval of your extension request to allow time to investigate the status of site history. I've attached a letter from the case file that also contains the a copy of the Notice of Responsibility (NOR) detailing site history as ACEH understands it. You may have seen it yesterday, but if not, I thought it might assist you in your research.

As discussed, ExxonMobil respectfully requests an extension to the 2/28/11 due date for a response referenced in the letter to 3/28/11, while ExxonMobil investigates historical use of the property and related issues.
