Hi Tom, Hi all,

Thanks for the update on the site; you'll find ACEH is in agreement with the revised schedule. I'll update Geotracker shortly.

Regards,

Mark Detterman

Subject: Case No. RO0000162, 10100 International Blvd. (E. 14th Street), Oakland, CA (Site #70691)

Hi Mark,

Thank you for taking the time to discuss the above-mentioned site with me today. We received your letter, dated July 22, 2011, today. As we discussed, ETIC Engineering is working on the environmental case for this site on behalf of ExxonMobil and wishes to be copied on any correspondence concerning this site. Our address and my contact information are noted below. Due to an apparent change in the address for this site over time and to avoid confusion, we will ensure that our correspondence to you references the Fuel Leak Case No. (RO0000162). In turn, would you be able to include ExxonMobil's designation for this site (70691) in the subject line of any correspondence, for ease of reference?

ETIC has been compiling background information for this environmental case to assist with preparation of the requested work plan addendum. Since we received your July 22nd letter today, ETIC, on behalf of ExxonMobil, is requesting an extension of the submittal deadlines that are indicated in your letter to Friday, November 11, 2011.

Thank you for your consideration of this request.

Tom
