Hi Mark,

I'm writing with regard to your January 27 letter requesting that a well survey be done for 413 W. Sunset (attached). It took over 3 weeks for the well survey data to come in from ACPWA and this leaves us a little pressed for time to perform the neighborhood well survey and submit a technical report by March 2<sup>nd</sup>. We would like to request a 2 week extension to comply with your request for the technical report, submitting it no later than March 16<sup>th</sup>.

Please let me know if this will be okay.

Thanks,

Logan Linderman, GIT
