July 30

Clifford Welch called @ 7:48am; left VM re letters, doesn't have computer; no way to send back; call 510/276-8739

Returned call @ 2:30; doesn't want Help desk phone number for Geotracker to help him claim it, spoke to a specialist who called this AM who will take care of everything, should be calling me.

August 4, 2009 8:41am; VM from Dave Dement of ERS (?); please call 925.938.1600 x109

3:30 – 3:45 Return call, discuss site, and documents in file. If he gets job (in proposal stage) suggest he work to have Mr. Clifford claim site in Geotracker due to NOV, and consider getting him into fund, should be a Class B claimant. Dave likely will propose a minimal investigation (1/2 day Geoprobe with grab gw samples) to see what might be present; is hoping is well weathered and low.
