Subject: Notice of Enforcement Referral; Fuel Leak Case No. RO0000178 and GeoTracker Global ID T0600102208, Caltrans Cypress Project, 5th St. and Adeline, Oakland, CA 94607

Dear Mr. Hill:

This is a notice of an enforcement referral for the subject site. Site Responsible Parties have not completed work as requested by Alameda County Environmental Health (ACEH) and are recalcitrant in implementing site investigation activities. As a consequence, ACEH is referring this site to the San Francisco Bay Regional Water Quality Control Board for enforcement actions.

On October 30, 1995, two underground storage tanks (USTs) (one 157-gallon and one 117-gallon diesel or motor oil UST) were removed from the site. Soil samples collected during the removal of the USTs detected maximum concentrations of 6,200 milligrams per kilogram (mg/kg) total extractable hydrocarbons as diesel (TEHd), 1,200 mg/kg TEH as motor oil (TEHmo), and 190 mg/kg total petroleum hydrocarbons as gasoline (TPHg). A map was not included in the report and a final report was not issued. The Responsible Party has not responded to requests for the submittal of a soil and groundwater investigation work plan, and for the submittal of additional missing reports due on September 25, 2011. To date, the requested reports have not been received.

Please be aware that not all historic documents for the subject fuel leak case may be available on GeoTracker. The complete historic case file for this site is located on the Alameda County Environmental Health website at: <http://ehgis.acgov.org/dehpublic/dehpublic.jsp>.

Should you have any questions, please contact me at (510) 639-1287 or send me an electronic mail message at [barbara.jakub@acgov.org](mailto:barbara.jakub@acgov.org).

Sincerely,

Barbara J. Jakub, P.G.  
Hazardous Materials Specialist
