James,

Thanks for the notice. I've had a chance to review your June 30, 2011 letter. In regards to well MW-8, let's see what the new well tells us, but let's hold on the destruction of well MW-8, even with good news at the new well. The biggest cost of the well has been incurred (the construction) and a fairly simple repair of the wellhead won't cost nearly as much, and the well may yet be useful depending on how the site works out.

Thanks,

Mark Detterman
