Jan,

Thanks for the clarification. This email documents that the schedule for Work Plan submittal for case RO0188 at 2900 Ladd Avenue in Livermore is extended to April 20, 2011. Schedules for future work and submittals will be established in future directive letters as appropriate based upon the scope of the proposed work. I have revised the scheduled due date for Work Plan submittal on the State Water Resources Control Board GeoTracker website (<http://geotracker.swrcb.ca.gov>).

Call me with any questions.

Hi Jerry,

When we spoke this morning I thought the extension was for the WHOLE process....work plan and completion of work. I do not see getting a work plan together by 2/18/2011, so I would need an extension on that work first and foremost. I am not sure how long it would take my Consultant to put together such plan, but a month or two past the 2/18/2011 date may be enough. You would better know how long that process takes.

How long after the work plan is submitted, do I have to work toward the completion of work and hopefully get to a 'case closed' status?

Sorry for the confusion.

Thank you,

Jan,

The only deadline currently established for your site is a due date of February 18, 2011 for a Work Plan. Are you requesting a one year extension for the Work Plan or for completion of the work? A shorter extension would be more in line for a Work Plan.

Subject: 2900 Ladd Ave Monitoring Wells

Hi Jerry,

Thank you so much for spending the time with me this morning regarding the monitoring wells at 2900 Ladd Ave., Livermore.

As requested, here is my formal request for a progress extension, for (1) year. Would this extension start today with the writing of this email? Will we get a formal letter stating we have been granted the extension?

As you know, I am working to get the best Consultant to help us with this project. Once I pick the Consultant that will help us move forward, I will be in touch with you to set up a 'scope meeting' before we proceed.

Please let me know if you have any other issues, concerns or questions. I can be reached at the information below.

Thank you again for all your help.
