Craig Pile of Harris & Associates called regarding contaminated soil removed from trench in right of way. He asked about putting soil back in excavation. I indicated that when contaminated fuel leak site, we g3enerally do not allow soil to be placed back in excavation. He asked who would sign the manifest for soil removal from right-or-way. I indicated that I could not answer the question. He asked whether he could speak to someone else in our department. I referred him to Donna Drogos.
