**Subject:** request for extension, 1435 Webster Street, Alameda

Hi Karel,

Thanks for your phone call. This email is regarding the site at 1435 Webster Street in Alameda, California. We just received the final round of laboratory results for the sampling following the oxidizer injections which were completed in October. I expect to have the report for these activities finalized by the end of January. Could you please extend the deadline for the Pilot Test Report to late January and the requested Revised Corrective Action Plan accordingly? That would be much appreciated.

As ever, please feel free to call if you have any questions or concerns.

Thank you,

Elise Sbarbori
