Subject: Close of Public Comment Period, Completion of Landowner Form, and Well Destruction at Chevron 97127 (RO195)
Attachments: DIR_L_2013-11-21.pdf

Brian,

The public comment period for the subject site ended on January 25, 2014. One verbal comment was received by Alameda County Environmental Health (ACEH) from the trustee for the site on the southwest corner of the intersection of Webster Street and Buena Vista Avenue. A subsequent meeting was held at ACEH on December 11, 2013, general site details were discussed, and written comments were requested if any concerns remained. No subsequent written communications were received.

You should be aware that the *List of Landowner Form* requested in, and included in the attached directive letter, has not been returned. Case closure cannot be issued until the form is returned and signed by the appropriate site landowner. All responsible parties, including recent owners, are required by state regulation to be notified of the pending closure, and allowed to comment.

Provided that all landowners have been notified of the pending closure, Chevron is free to proceed with the destruction of all wells associated with the site (groundwater, vapor, etc), as requested in the attached November 21, 2013 letter from ACEH.
