

## Detterman, Mark, Env. Health

---

**Subject:** RO195 Public Comments  
**Entry Type:** Meeting

**Start:** Wed 12/11/2013 1:30 PM  
**End:** Wed 12/11/2013 2:30 PM  
**Duration:** 1 hour

Meet with Catherine Young re the site. She is trustee for site kitty-corner to site and is concerned with disclosure for a sale should she need to sell in near future. Review site with her online. Also discuss the BP site across Webster from her parcel, as it is likely closing in near future, (at least the older part of the site). Based on this discussion she does not appear to have any real concerns based on our conversation. I provided a copy of the most recent groundwater contour map from the July 2013 GWM report, as it shows groundwater flow direction, and contaminant concentrations in wells that do not appear to impact the property she is involved with.
