Hello Jason,

It is nice to slow down a little at the holidays. No problem with an extension.

Based on your request, the schedule for submittal of the Updated CSM and Groundwater Investigation Report is extended to January 17, 2014.

Regards,
Jerry Wickham

Hi Jerry,

I hope the holidays treated you well. I am emailing to request a minor extension related to the submittal of the *Updated Conceptual Site Model and Soil and Groundwater Investigation Report* for BP Station #771 located at 899 Rincon Avenue. The current deadline is January 10, 2014. I would like to request a revised deadline of January 17, 2014 in order to allow for the completion of final revisions and updates associated with this report. My apologies for the additional request, the holidays and vacation time set me back further than I had hoped. Thank you in advance for your understanding. Take care.

Jason Duda
