Hello Peter,

Extension of the schedule for submittal of the Vapor Intrusion Work Plan to August 31, 2012 is acceptable.

Regards,

Good Morning Jerry:

Thank you for the phone call this morning. As I mentioned, I was in receipt of your April 2, 2012 letter. We will be working with Mr. Lum on the requested workplan. I will propose that we have the workplan delivered no later than Friday August 31, 2012. We will also suspend additional groundwater monitoring, pending additional discussion. Thank you again for your time on this case. Regards - Peter

Good Morning Jerry:

Thank you for taking a few minutes to speak with me about this case yesterday. As I mentioned, we are coming upon the next scheduled quarterly groundwater monitoring event which will mark about 1 year since the HVDPE system was shutoff. Prior to performing that event in early August and in preparation for looking at this case for potential closure evaluation, we welcome your thoughts on the case prior to that field work. I'll plan to follow up with you toward the end of next week. In the meantime, if you have any questions or comments on the case, please contact me anytime.

Regards - Peter
