**Duration:** 0 hours

7007 San Ramon Valley Rd., Dublin  
MW-6,7,9 are on See's property - to be redev  
they want to abandon the three wells

is suggested that they submit a workplan for the abandonments and evaluate site characterization with an eye towards eventual closure  
discussed the April 2004 TreiRegionals for closure guidance  
wp to likely include: summary tables w/well screening intervals and dtw, graphs of TPHg and B concentrations over time, and proposed future action incl sampling modified well sampling frequency

7/30/92

clint Rogers called  
to say we will  
come about end of  
August '92
