Kris,

My last two letters outlined the requirements for closure. Since the construction of the surface cap is part of the site remedy, completion and verification of the surface cap is required before case closure. Therefore, the construction oversight report is essential to closing the case.

Regards,
Jerry Wickham

Subject: Closure for Holland Property

Jerry,
I'd like to find out what your timeline is for a Holland Park No Further Action letter. Timing on this is important because HARD will not receive specific grant funding if they don't receive closure by October 1, 2010. I uploaded the Final SMP and e-mailed you the deed restriction a few weeks ago, and I know your waiting on the construction oversight report which won't be finished until project completion. However, I would think that the construction oversight report wouldn't be an essential document regarding site closure. Please let me know if you need anything else to assure that Holland Park receives the proper closure notification in a timely manner.
Best regards,

Kris M. Larson, P.G.
