Phone call with Charlene Key who is trustee for May Key Trust, which operates a lease at the site. Ms. Key received a letter and inquired as to status of site. I indicated that the site is in a public comment period for case closure under the Low Threat Closure Policy. The site fulfills the conditions for closure under the LTCP but residual contamination would remain on site. If the site were to be redeveloped at some time in the future, the residual contamination would need to be considered. Case closure is not expected to affect the current lease operation.
