- 10/1/96 Call from Tom Edwards of Tom Edwards & Associates, requesting me to look at the work plan he submitted back in August.
- 10/2/96 New case from SH. Review file and prepare site summary. Print NORs. Review Tom Edwards & Associates "Analytical Results"-dated 8/28/86. This site was transferred into LOP on 8/28/96. Call to Tom Edwards. He will fax me copy of work plan. Review TEA "Excavation and Sampling Work Plan"-dated 8/29/96. Draft approval letter, with addition of MTBE analysis for soils and possible GW, sent after BC review.
- 10/7/96 Call from Tom Edwards concerning overexcavation of UST pit. Schedule field operations for Friday October 11, 1996 at 1:00 pm. Asked BC to cover for me.
- 10/16/96 Confer with BO. He stated that I should give Mr. Edwards a call, since he was also aware of the overexcavation work performed last week Friday. Call to Mr. Edwards. He will have submitted the UST closure report by the time he leaves for vacation (November 3, 1996).
- 11/13/96 Review Tom Edwards and Associates (TEA) "Tank Removal and Soil Excavation Report"-dated 10/25/96. There were two underground fuel storage tanks (USTs) located on the site. Three vent lines were observed prior to the removal of the tanks, however only two USTs were located. One 700-gallon UST contained gasoline and a gasoline dispenser was located inside the shop area. The other 700-gallon UST contained waste oil. The extent of the contamination was not sufficiently defined, due to structural constraints of the shop building. Laboratory results of soil sample SS-1, collected from beneath the concrete surface and adjacent to the former dispenser, revealed TPHg, TPHd and BTEX at concentrations of 20,000, 13,000, 13.0, 220, 110 and 1,250 mg/kg, respectively. Call to Tom Edwards, he is out of the office until next week - left message.
- 11/25/96 Call from Tom Edwards.
- 11/26/96 Call to Tom Edwards.
- 12/12/96 Call from Tom Edwards. He is tentatively scheduling the backfilling of the UST excavation Tuesday the 17th of December at 8:30.
- 1/13/97 Call from Tom Edwards. He is tentatively scheduling the backfilling of the UST excavation Thursday the 16th of January at 8:30.
- 1/22/97 Message from SH, regarding call from Gene Failing requesting that unused portion of Deposit/Refund account be returned to him. It appears that a refund in the amount of 263.20 be returned. Left note for Leslie Peters.
