Subject: RE: Fuel Leak Case RO225 - Caltrans Oakland Maintenance Station, 555 Hegenberger Rd., Oakland, CA

Hello all,

My supervisor's vacation is starting a day early making the August 7 date impossible. However, after discussing with her her schedule, times and dates available prior to her vacation are Tuesday 8/5 between 11am to 4pm and Wednesday 8/6 between 9am to 3pm. Please let me know if either of these days work for you.

Regards,
Keith Nowell

Hi Keith:

In reference to your e-mail dated July 25, 2014, Mr. Bahram Sazegar, with Caltrans, and Rick Day and John Love, with Geocon Consultants, are available to meet at your office on August 7 at 9:00 am to discuss the above referenced fuel leak case. Mr. Sazegar has taken over for Ramin Behani as the Caltrans contact for this site. Ramin has taken a position with Cal OSHA in their SoCal office.

If you have any questions you may contact me at the numbers below.

Thanks, and we look forward to meeting with you next week.
