Subject: Fuel Leak Case RO225 - Caltrans Oakland Maintenance Station, 555 Hegenberger Rd., Oakland, CA

Dear Mr. Boyer:

Alameda County Environmental Health (ACEH) has reviewed the case file including the most recent correspondence, dated May 28, 2013, and ACEH's most recent directive letter, dated February 3, 2012, for the subject site. Since these correspondences were exchanged, the State Water Resources Control Board (SWRCB) adopted the *Low Threat Underground Storage Tank Case Closure Policy* (LTCP) in August 2012 for the purpose of establishing consistent statewide case closure criteria for low-threat petroleum Underground Storage Tank (UST) sites. In July or early August, ACEH would like to set up a meeting with you at our office to discuss a review of the site's status in comparison with the LTCP and to develop a path to closure for your case. Please send me several dates and times that you and your consultant would be available to meet with us.

Please provide ACEH several dates and times during which a meeting can be scheduled to discuss the path to closure for these cases. ACEH staff will select dates and times from your list to arrange the meeting. Please provide the list of available dates and times by July 14, 2014.

Thank you for your cooperation. ACEH looks forward to working with you and your consultants to advance the case toward closure. Should you have any questions regarding this correspondence or your case, please call me at (510) 567-6764 or send an electronic mail message at keith.nowell@acgov.org.

Sincerely,
Keith Nowell
