Subject: Caltrans 555 Hegenberger Rd., Oakland Field and Reporting Schedule

Hi Keith,

I wanted to follow up with you regarding Stantec's February 21, 2012 submittal responding to your February 3, 2012 letter regarding the subject site.

In our response, we indicated that Caltrans was working out an access and right of entry agreement with the adjacent property owner. This has now been finalized. With the delay in obtaining the agreement and subsequent scheduling difficulties, we are now scheduled to conduct the quarterly groundwater monitoring (and well development) event the last week of March. Therefore, we would like to request an extension for submitting the final First Quarter 2012 Monitoring Report until May 18, 2012.

Regarding the Site Investigation, Preferential Pathway Study, and Site Conceptual Model, we will be in the field starting the first week of April and therefore, request the report deadline be extended to June 8, 2012.

If you have any questions, please do not hesitate to contact me.
