

10/4/00

Conversation w/ Ted Douglas - Gettles Ryan
update on site.

- Existing backfill well too close to edge
of pit & sitting partially in natural soil
Have just completed a large diameter
backfill well.
mentioned my 6/30/00 letter

- After gw extraction has been done
for several levels, will advance a boring
downgrade (near boring U-D) to sample
GW for MTBE & other analyte

- Requested that he sp w/ D. Plwit to
attach a cover letter on QMR to
provide update & next gtr. plans
Currently Torco sends out gtr. updates
separately.
