Subject: Extension Request Chevron #9-4612 3616 San Leandro St, Oakland (RO233)

Travis and Carryl,

ACEH received the extension request for the subject site and I obviously wanted to respond. In regards to notification of work plan revisions and the SGC technique, ACEH would be agreeable with an extension to November 16, 2012 (not Nov. 30). However, again let's hold off on the subsurface investigation, so that perhaps I'll have the ability to review the data and review the site against the LTCP. Please use this email as documentation of the change. I'll update Geotracker shortly.

Regards,

Mark Detterman
