Subject: RO233; Chevron 94612; Meeting Followup and Report Submittal Extension

Carryl and Alexis,

Based on the discussions in the meeting held at ACEH on May 8, 2014, ACEH is in agreement that an extension of the submittal of the final report to September 26, 2014 is appropriate at this site. This is longer than typical but is expected to allow several higher priority sites to proceed more quickly this summer. Obtaining offsite encroachment permits from the City of Oakland was also identified as likely and would likely require additional time. These dates will be updated in Geotracker shortly.
