I Received a call from Jackie Everidge, daughter of Responsible Party Willie & Hazel Everidge. She called to find out why the County is requiring more work, spending her elderly parents money and that they have no more money to continue site investigation. I explained to her that we are not out to collect money from her parents and that the site investigation work is requested to protective of human health and the environment. I also informed her about the UST Cleanup Fund, which may reimburse costs associated with the leaking USTs. She requested that I mail her a UST Cleanup applicable. I informed her that it should be availble on internet. However, Jackie said that she does not have internet access.
