- 11/16/99 Left message for Scott Serry inquiring about g.w. flow directions at adjacent site: 6039 College Ave.
- 11/16/99 Spoke to Doug Lee, Gettler-Ryan, Inc. Discussed his proposal & the difficulty adjacent sites have had in getting adequate recharge in the Geopods & difficulty obtaining representative sample results. Discussed the possibility of using pre-pack filters; however, Mr. Lee argued that, due to their very fine filter sand, they experienced a lot of clogging. We also discussed bypassing this preliminary g.w. investigation & just going ahead & installing permanent wells in downgradient directions. He will discuss this w/ Dave DeLitt and get back to me.
