Hi Jerry,

I just arrived in Flint, MI a few minutes ago and saw this e-mail from Carmen Rogers at our Berkeley Farms location in Hayward, CA. She called me a few days ago and left a voice mail explaining that we needed to close some monitoring wells. I called her back; however, she had left the office and turned off her cell phone. She did not mention anything about the NOV nor did we know about the approx. year old letter. Peter Puckett left our Company and moved to KY a year or two ago and apparently no one knew what to do with the letter.

I tried to phone your office; however, your voice mail indicated that you were out today. There is an August 10 deadline, but I am not sure what needs to be done. Could we kindly ask for another day or two to complete the requirements?

I would appreciate if you could call my cell # at your convenience tomorrow. Otherwise, I will try to reach you.

Thank you,

Norman G. Stone

Hi Norm,

Sorry it took me so long to respond - I have been out of the office. Here is the information I spoke about.

Please let me know if you need the original copy.

thanks very much for your help.

Hi Carmen,

Not sure you received my voice mail yesterday. Could scan and e-mail the letter to me. We will need to talk with an environmental contractor - probably the one who installed the wells and get a proposal for closing them. We need to ask if the State re-imburses us and whether or not they need to approve the proposal. I will be on my cell # today, but should be able to hear. I have to go into LA this morning to Swiss Dairy's distribution location.

Norm
