Subject: Case File Review for Fuel Leak Case No. RO0000246 and GeoTracker Global ID T0600100489, Redwood Regional Park, 7867 Redwood Road, Oakland, CA 94619

Dear Mr. Graul and Mr. Makdisi:

I am the new case worker for the above referenced case. Jerry Wickham, the previous case manager at ACDEH, retired in January of this year. I have done some reviewing of the case file and spoke with Mr. Makdisi about the recommendation for continued semi-annual groundwater monitoring with additional testing of the site chemical parameters in the down gradient wells. I concur with the plan and hope to be able to come out to the site this September when the next sampling occurs.

Please let me know if you have any questions and concerns. Thank you.

Sincerely,

Anne Jurek, M.S.
