Re: Revision of January 25, 1993 ARCO Letter  
17197 Via Magdalena  
San Lorenzo, California 94580

Dear Mr. Lester Schrag:

Thank you for agreeing to discontinue operating your irrigation well until at least August 1, 1993, and for allowing ARCO Products Company (ARCO) to collect quarterly groundwater samples from your irrigation well through 1993. Monthly reimbursements should begin by March 19, 1993.

ARCO would like to apologize for an error in ARCO's letter to you, dated January 25, 1993 (attached). ARCO incorrectly stated that very minor amounts of gasoline and benzene were detected in groundwater samples collected from your irrigation well. Neither gasoline nor benzene have been detected in groundwater samples collected by ARCO from your irrigation well. A tabulated historical summary of groundwater analytical results for your irrigation well was included in ARCO's letter to you, dated January 14, 1993 (attached). This table accurately shows that gasoline and benzene have not been detected in your well.

March 16, 1993

Project 330-06.18

Mr. Tahnann  
633 Hacienda Avenue  
San Lorenzo, California 94580

Re: Domestic Irrigation Well Use and Groundwater Sampling  
633 Hacienda Avenue  
San Lorenzo, California 94580

Dear Mr. Tahnann:

In a letter dated January 14, 1993, ARCO Products Company (ARCO) requested permission to perform quarterly groundwater sampling through 1993 on the irrigation well located on your property. Enclosed with that letter was an authorization form, which when signed and returned, would authorize ARCO's consultant, Pacific Environmental Group, Inc. (PACIFIC), to begin 1993 quarterly groundwater sampling of your irrigation well.

Additionally, in a letter dated January 25, 1993, ARCO requested that use of the irrigation well at your property be discontinued for a period of approximately 6 months. ARCO also requests authorization to install a temporary lock on the irrigation well for security purposes only. This lock will be removed by ARCO prior to well reactivation. The Alameda County Health Care Services Agency has solicited ARCO to prepare this request. As compensation for the temporary loss of use of your irrigation well, ARCO offered to reimburse you \$30 per month, beginning February 1, 1993. Enclosed with that letter was an authorization form, which when signed and returned, would authorize PACIFIC to begin monthly reimbursements (beginning in the month that the authorization form is received). After receipt of the authorization form, a reimbursement check will be mailed to you within 10 working days, and subsequent checks will be mailed to you during the first week of each month.

As of March 1, 1993, we have not received your authorization to begin quarterly groundwater sampling. We also have not heard whether you agree to temporarily discontinue use of your irrigation well. For your consideration, we have enclosed:

March 16, 1993

Page 2

- o Copies of both letters referenced above
- o A revised authorization form
- o A self-addressed, stamped envelope for returning the revised authorization form

We would greatly appreciate your assistance in **completing the revised authorization form only**, and returning it in the self-addressed, stamped envelope. Please note that this form provides spaces to accept or reject ARCO's requests.

ARCO would like to apologize for an error in ARCO's letter to you, dated January 25, 1993. ARCO incorrectly stated that very minor amounts of gasoline and benzene were detected in groundwater samples collected from your irrigation well. Neither gasoline nor benzene have been detected in groundwater samples collected by ARCO from your irrigation well. A tabulated historical summary of groundwater analytical results for your irrigation well was included in ARCO's letter to you, dated January 14, 1993. This table accurately shows that gasoline and benzene have not been detected in your well. ARCO still requests that use of your well be temporarily discontinued, as described above.

If you have any questions regarding this letter, please call me at (415) 571-2434. Thank you very much for your cooperation.

Sincerely,

**ARCO Products Company**

San Lorenzo, California 94580

Re: Domestic Irrigation Well Groundwater Sampling  
642 Hacienda Avenue  
San Lorenzo, California 94580

Dear Mr. and Mrs. Corregedor:

Thank you for agreeing to discontinue operating your irrigation well until at least August 1, 1993. ARCO Products Company (ARCO) will begin monthly reimbursements immediately.

Also, in a letter dated January 14, 1993, ARCO requested permission to perform quarterly groundwater sampling through 1993 of the irrigation well located on your property. Enclosed with that letter was an authorization form, which when signed and returned, would authorize ARCO's consultant, Pacific Environmental Group, Inc. (PACIFIC), to begin 1993 quarterly groundwater sampling of your irrigation well.

As of March 1, 1993, we have not received your authorization to begin quarterly groundwater sampling. For your consideration, we have enclosed:

- o A copy of the letter referenced above
- o A revised authorization form
- o A self-addressed, stamped envelope for returning the revised authorization form

March 16, 1993

Page 2

We would greatly appreciate your assistance in **completing the revised authorization form only**, and returning it in the self-addressed, stamped envelope. Please note that this form provides spaces to accept or reject ARCO's request.

ARCO would like to apologize for an error in ARCO's letter to you, dated January 25, 1993 (attached). ARCO incorrectly stated that very minor amounts of gasoline and benzene were detected in groundwater samples collected from your irrigation well. Neither gasoline nor benzene have been detected in groundwater samples collected by ARCO from your irrigation well. A tabulated historical summary of groundwater analytical results for your irrigation well was included in ARCO's letter to you, dated January 14, 1993. This table accurately shows that gasoline and benzene have not been detected in your well.

If you have any questions regarding this letter, please call me at (415) 571-2434. Thank you for your cooperation.

Sincerely,

**ARCO Products Company**

Re: Domestic Irrigation Well Use and Groundwater Sampling  
633 Hacienda Avenue  
San Lorenzo, California 94580

Dear Mr. Tahnann:

In a letter dated January 14, 1993, ARCO Products Company (ARCO) requested permission to perform quarterly groundwater sampling through 1993 on the irrigation well located on your property. Enclosed with that letter was an authorization form, which when signed and returned, would authorize ARCO's consultant, Pacific Environmental Group, Inc. (PACIFIC), to begin 1993 quarterly groundwater sampling of your irrigation well.

Additionally, in a letter dated January 25, 1993, ARCO requested that use of the irrigation well at your property be discontinued for a period of approximately 6 months. ARCO also requests authorization to install a temporary lock on the irrigation well for security purposes only. This lock will be removed by ARCO prior to well reactivation. The Alameda County Health Care Services Agency has solicited ARCO to prepare this request. As compensation for the temporary loss of use of your irrigation well, ARCO offered to reimburse you \$30 per month, beginning February 1, 1993. Enclosed with that letter was an authorization form, which when signed and returned, would authorize PACIFIC to begin monthly reimbursements (beginning in the month that the authorization form is received). After receipt of the authorization form, a reimbursement check will be mailed to you within 10 working days, and subsequent checks will be mailed to you during the first week of each month.

As of March 1, 1993, we have not received your authorization to begin quarterly groundwater sampling. We also have not heard whether you agree to temporarily discontinue use of your irrigation well. For your consideration, we have enclosed:

March 16, 1993

Page 2

- o Copies of both letters referenced above
- o A revised authorization form
- o A self-addressed, stamped envelope for returning the revised authorization form

We would greatly appreciate your assistance in **completing the revised authorization form only**, and returning it in the self-addressed, stamped envelope. Please note that this form provides spaces to accept or reject ARCO's requests.

ARCO would like to apologize for an error in ARCO's letter to you, dated January 25, 1993. ARCO incorrectly stated that very minor amounts of gasoline and benzene were detected in groundwater samples collected from your irrigation well. Neither gasoline nor benzene have been detected in groundwater samples collected by ARCO from your irrigation well. A tabulated historical summary of groundwater analytical results for your irrigation well was included in ARCO's letter to you, dated January 14, 1993. This table accurately shows that gasoline and benzene have not been detected in your well. ARCO still requests that use of your well be temporarily discontinued, as described above.

If you have any questions regarding this letter, please call me at (415) 571-2434. Thank you very much for your cooperation.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer

Dear Mr. John Manry:

In a letter dated January 14, 1993, ARCO Products Company (ARCO) requested permission to perform quarterly groundwater sampling through 1993 on the irrigation well located on your property. Enclosed with that letter was an authorization form, which when signed and returned, would authorize ARCO's consultant, Pacific Environmental Group, Inc. (PACIFIC), to begin 1993 quarterly groundwater sampling of your irrigation well.

Additionally, in a letter dated January 25, 1993, ARCO requested that use of the irrigation well at your property be discontinued for a period of approximately 6 months. ARCO also requests authorization to install a temporary lock on the irrigation well for security purposes only. This lock will be removed by ARCO prior to well reactivation. The Alameda County Health Care Services Agency has solicited ARCO to prepare this request. As compensation for the temporary loss of use of your irrigation well, ARCO offered to reimburse you \$30 per month, beginning February 1, 1993. Enclosed with that letter was an authorization form, which when signed and returned, would authorize PACIFIC to begin monthly reimbursements (beginning in the month that the authorization form is received). After receipt of the authorization form, a reimbursement check will be mailed to you within 10 working days, and subsequent checks will be mailed to you during the first week of each month.

March 16, 1993

Page 2

As of March 1, 1993, we have not received your authorization to begin quarterly groundwater sampling. We also have not heard whether you agree to temporarily discontinue use of your irrigation well. For your consideration, we have enclosed:

- o Copies of both letters referenced above
- o A revised authorization form
- o A self-addressed, stamped envelope for returning the revised authorization form

We would greatly appreciate your assistance in **completing the revised authorization form only**, and returning it in the self-addressed, stamped envelope. Please note that this form provides spaces to accept or reject ARCO's requests.

If you have any questions regarding this letter, please call me at (415) 571-2434. Thank you very much for your cooperation.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer

Re: Domestic Irrigation Well Groundwater Sampling  
642 Hacienda Avenue  
San Lorenzo, California 94580

Dear Mr. and Mrs. Corregedor:

Thank you for agreeing to discontinue operating your irrigation well until at least August 1, 1993. ARCO Products Company (ARCO) will begin monthly reimbursements immediately.

Also, in a letter dated January 14, 1993, ARCO requested permission to perform quarterly groundwater sampling through 1993 of the irrigation well located on your property. Enclosed with that letter was an authorization form, which when signed and returned, would authorize ARCO's consultant, Pacific Environmental Group, Inc. (PACIFIC), to begin 1993 quarterly groundwater sampling of your irrigation well.

As of March 1, 1993, we have not received your authorization to begin quarterly groundwater sampling. For your consideration, we have enclosed:

- o A copy of the letter referenced above
- o A revised authorization form
- o A self-addressed, stamped envelope for returning the revised authorization form

March 16, 1993

Page 2

We would greatly appreciate your assistance in **completing the revised authorization form only**, and returning it in the self-addressed, stamped envelope. Please note that this form provides spaces to accept or reject ARCO's request.

ARCO would like to apologize for an error in ARCO's letter to you, dated January 25, 1993 (attached). ARCO incorrectly stated that very minor amounts of gasoline and benzene were detected in groundwater samples collected from your irrigation well. Neither gasoline nor benzene have been detected in groundwater samples collected by ARCO from your irrigation well. A tabulated historical summary of groundwater analytical results for your irrigation well was included in ARCO's letter to you, dated January 14, 1993. This table accurately shows that gasoline and benzene have not been detected in your well.

If you have any questions regarding this letter, please call me at (415) 571-2434. Thank you for your cooperation.

Sincerely,

**ARCO Products Company**

Michael Whelan  
Environmental Engineer

**QUARTERLY GROUNDWATER SAMPLING AND  
DISCONTINUE WELL USE  
REVISED AUTHORIZATION FORM**

---

**QUARTERLY GROUNDWATER SAMPLING AUTHORIZATION**

\_\_\_\_\_ **I authorize ARCO Products Company (ARCO), or its designated representative, to collect groundwater samples on a quarterly basis through 1993 from the irrigation well located at this property.**

\_\_\_\_\_ **I do not authorize ARCO, or its designated representative, to collect groundwater samples on a quarterly basis through 1993 from the irrigation well located at this property.**

**DISCONTINUE WELL USE**

\_\_\_\_\_ **I agree to stop pumping the irrigation well located on this property until at least August 1, 1993, and to allow ARCO to install a temporary lock on the well for security purposes only. This lock will be removed by ARCO prior to well reactivation. In exchange for this authorization, ARCO will reimburse me \$30 per month (beginning in the month that the authorization form is received). After receipt of the authorization form, a reimbursement check will be mailed to you within 10 working days. Monthly reimbursement will occur during the first week of each month, and will continue until Alameda County Health Care Services Agency (ACHCSA) approves reactivation of your well.**

\_\_\_\_\_ **I do not agree to stop pumping the irrigation well located on this property.**
