**Subject:** RE: RO0264-500 40th St., Oakland - proposed sub-slab probe installation

Jerry,

The tenant in the on-site building adjacent to the originally-proposed location of SVP-4 has asked us to postpone installing the sub-slab probe until after their general manager returns from vacation sometime next week. Consequently, CRA will reschedule the soil vapor installations after we receive permission to install the sub-slab probe.

Regards,

**Peter Schaefer**

**Subject:** RE: RO0264-500 40th St., Oakland - proposed sub-slab probe installation

Peter,

Installation of a sub-slab probe inside the site building near the location of proposed SVP-4 is acceptable to replace SVP-4.

**Subject:** RE: RO0264-500 40th St., Oakland - proposed sub-slab probe installation

Jerry,

This email is to confirm that based on my conversations with you and Denis Brown this morning, we intend to install a sub-slab probe within the building directly adjacent to the proposed location or SVP-4.

Regards,

**Peter Schaefer**

**Subject:** RO0264 - 500 40th St., Oakland - Utility locating field results and revised SV probe locations

Jerry,

Per our telephone conversation, here are our field notes showing the utilities on the site and the proposed revised locations for the soil vapor probes.
