Duration: 0 hours

Phone call with Bob Foss of CRA. They would like to install sub-slab vapor probes of the basement of building across Harrison Street from the site. The basement extends under sidewalk and is approximately 10 to 12 feet bgs. The sub-slab probes are acceptable. I requested that a report not be submitted until the soil vapor probe data are collected. An access agreement is not in place; Bob Foss estimated it may be resolved in another week. Once agreement is in place, they will come back to request a schedule extension for reporting.
