Philip Briggs
Project Manager
Chevron USA, Inc.
P.O. Box 5004
San Ramon, CA 94583

Dear Phil,

At your request, NEI/GTEL Analytical located in Wichita, KS has reviewed the chromatographs from sampling events from March 1993 through January 1995 for Chevron site 9-0329. You specifically requested that we report any MTBE found for sampling site C-2. Initially the GTEL Concord facility analyzed the samples for TPH gas and BTEX only. Because MTBE was not requested, the MTBE peaks were not brought within the calibration range. Therefore, the results reported for MTBE are all flagged as estimated values.

If there are any further questions about this data, please do not hesitate to contact me at 1-800-633-7936.

Sincerely,

A handwritten signature in cursive script that reads 'Justin Ward'.

Justin Ward
Project Coordinator
