Subject: Chevron #9-0329 (RO269); Approval of Scope of Work

Hi all,

Rather than send a full letter, I thought it appropriate to respond to the scope of work contained in the letter correspondence dated January 26, 2011. The scope of work outlined in the letter appears to be a reasonable approach to outstanding questions remaining at the site. Please use this email as ACEH concurrence with the scope. Please include the findings in the next regularly scheduled semi-annual groundwater monitoring report. If you have questions, please let me know.

Best,

Mark Detterman
