**Subject:** Public Notifications for USTCF Recommendations for Closure

Hi Bob,

One of the topics discussed last week in the LTCP training session was the lack of documentation of public notifications. Kevin Graves stated that we should contact the USTCF to obtain a record of who and what addresses were notified for sites the USTCF has recommended for closure. I am following up on that statement, and since you have been associated with these two recommendations, it was judged best to contact you as the most likely to be knowledgeable as to this issue. If this should be forwarded to someone else as more appropriate, please keep us in the loop.

In regards to the two ACEH sites currently recommended for closure (Claim 6001 / RO269 and Claim 5502 / RO403), ACEH is requesting a copy of these records. Thanks for your time on this.

Regards,
