Dear Mr. Worthington and Mr. Hoban,  
Your request for a two week extension for the SCM is granted.

**Subject: Conceptual Model and Semi-Annual Groundwater Monitoring**

**Site Location: Former Exxon Station, 3055 35th Avenue, Oakland**  
ACEH LOP #: RO-0000271; GeoTracker #: T0600100538;

Hi Barbara,

I just got your message - thank you. And I also just got word that Conestoga-Rovers will be doing the current round of semi-annual sampling so that's all squared away.

We were anticipating getting a better feel for the site by inspecting, sounding, gauging and collecting field measurements at all the wells during the current round of semi-annual sampling with our own crew, but that will have to wait for a different event. As mentioned in my earlier voice mail, the SCM data gathering and generation of summary graphics is taking a little more time that I anticipated and we would like to request a two week extension to Monday April 4th. Sorry about the delay.

Pat
