Dear Ms. Barbara Jakub:

Re: Updated Offsite Sampling Locations and Extension Request
Former Exxon Service Station
3055 35th Avenue, Oakland, California
Fuel Leak Case No. RO0000271

The offsite sampling locations have changed slightly due to approved access agreements and site access. An updated figure showing the proposed locations is attached.

Access agreements have proven difficult to obtain. We just received the latest signed access agreement. Because of this, we will not be able to meet the October 13, 2008 deadline for completion of field work. We therefore request an extension to December 13, 2008 for completion of field work and a February 13, 2009 date for submittal of the characterization report.

If you have any questions or comments, please contact Eric A. Syrstad at (510) 420-3317 or Mark Jonas at (510) 420-3307.

Yours truly,

CONESTOGA-ROVERS & ASSOCIATES

Eric A. Syrstad
