Subject: RO# 0274 Former Chevron 93322 - 7225 Bancroft Ave, Oakland

Hi Mark,

As we discussed, the groundwater monitoring well proposed in the southern corner of the site, adjacent to SB-9, will be advanced with direct push rods and installed as a 1-inch diameter well. The change in well construction is due to the safety issues associated with drilling within 3 feet of the storm drain located along the 73rd Avenue property boundary.

Thank you,
Kiersten
