Debra,

Please use this email to document ACEH concurrence with the requested extension. I have extended the submittal date until October 10th on Geotracker.

Mark,

We have conducted the GW sampling event at the site (results are remarkably similar to previous data). We will be submitting a GWM report and a response to your letter in the next 3-4 weeks. We were unable to schedule the GW event until August, so we will need to request an additional extension of the deadline for our response.

Debra,

Thanks for the update. My only thought is that since it has been a bit since the wells were sampled, to make ensure the wells are sufficiently purged to ensure representative groundwater samples. Good luck.

Mark,

I wanted to let you know that we will be conducting a sampling event at the Greyhound site on San Pablo next week – August 4- 6. Let me know if you have any questions or concerns. Thanks.

Thanks for the quick response! Yes that is a typo –I meant 2011.
I was thinking 10am your time -PDT.

Debra,
I should (or can) be free then. One question, 10 my time or yours? I think it's a 2 hr difference?

I'm a bit confused about not have any data since 2001. The most recent groundwater sampling event was conducted in December 2011. A typo? Regardless, a groundwater event is definitely a good idea if that is the most recent information. You can definitely proceed with that as the information may be very useful in regards to appropriate next steps for the site.

Mark,

Thank you for returning my call - We are hoping to get to the site to conduct a groundwater monitoring event since we don't have any data since 2001 and wanted to get the most current information before responding to your April 7th letter. Please let me know if you are on board with a groundwater sampling event so that we can get that scheduled as soon as possible. In addition to the groundwater event we wanted to address the potential secondary source and have a few ideas about that. I am available most of next week except Wednesday afternoon –but can we plan on a call and what I promise will be a brief discussion with you on Tuesday at 10am? Let me know if that works for you. Thanks.
