Scott,

We have extended the public comment period two weeks until January 29, 2014. I have received verbal comments from the Zone 7 Water Agency but have not received written comments yet.

Regards,
Jerry Wickham

Subject: 2008 First Street, Livermore

Good morning. Today should be the end of a 60 day public comment period regarding potential closure of this site's environmental case. I am therefore writing to inquire as to whether you received any comments about closure and whether we can proceed towards well destructions. Please let me know when you have a moment.

Thanks,
Scott Bittinger
