Hi Barbara,

This is an update on the above referenced site:

Site wells were redeveloped and resurveyed in November. It was also necessary to replace all well-boxes.

Wells were sampled December 4.

The monitoring report is being finalized and the work plan is being prepared.

Scheduled submission date for WP and report is January 27. If it's OK with you, I'd like to postpone submission until February 13.

Thanks for your help with this. Please contact me if you'd like to discuss the site.

Jim Green  
Project Manager
